<a href="#">Electrum Redd-4.0.3.0-arm64-v8a-release.apk</a>	19-Oct-2020 03:37	58															
<a href="#">Electrum Redd-4.0.3.0-armeabi-v7a-release.apk</a>	19-Oct-2020 03:37	58															

- 3 Tap **Electrum\_Redd-x.x.x.x-arm64-v8a-release.apk** if your Android device is 64-bit.  
Tap **Electrum\_Redd-x.x.x.x-armeabi-v7a-release.apk** if your Android device is 32-bit.

**NOTE:** Download [AIDA64](#) app (tap CPU in app) to find out whether your Android device is 32-bit or 64-bit if you're not sure. Most of the newer Android devices are 64-bit and most of them are backward compatible to support both 32-bit and 64-bit ABIs but we recommend installing respective apks to avoid any issues.

You may receive a warning message as shown in the screenshot below. Please ignore the message and tap **OK** button.

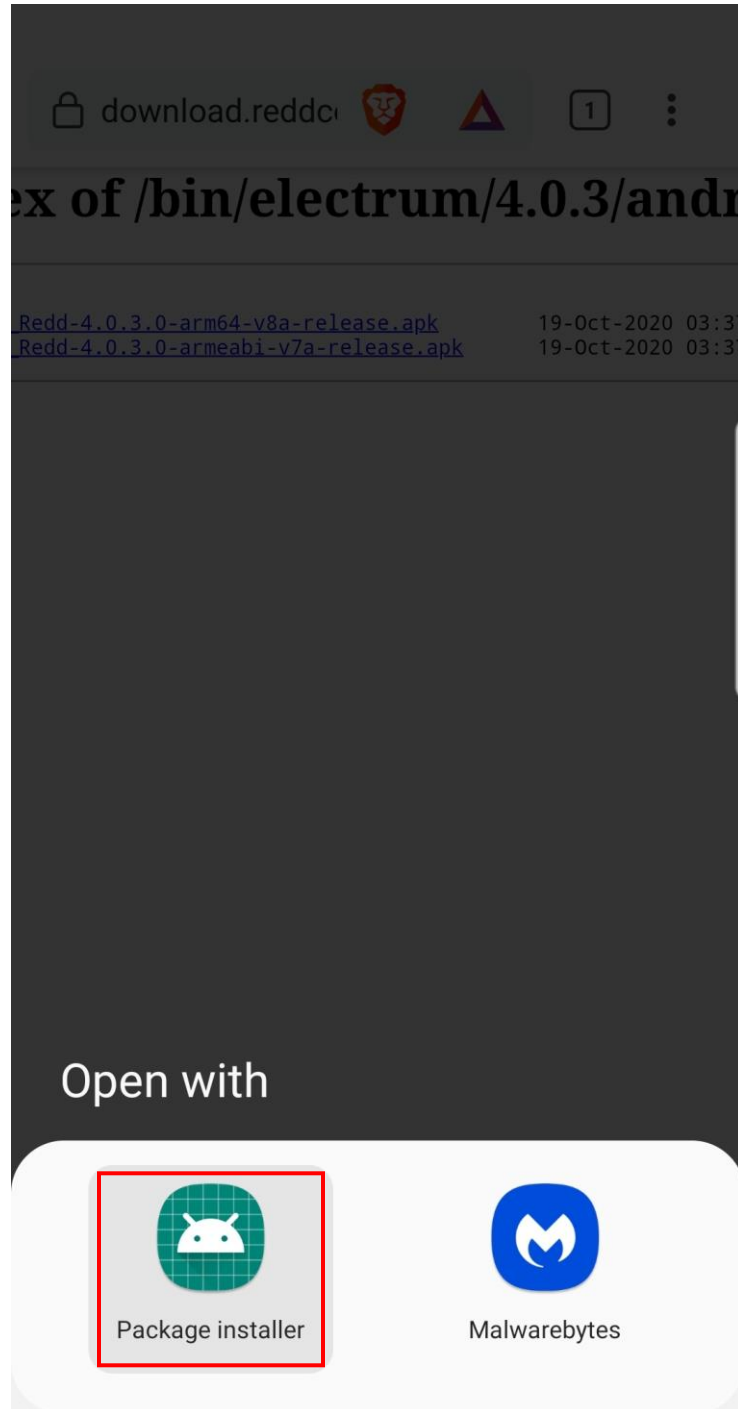

4 Tap **Open** button at the bottom when the message shown in the screenshot appears.

**NOTE:** This message may appear differently in different browser. Screenshot below is taken from Brave browser.

5 You may receive an option to select installer as shown in the screenshot below. Tap **Package installer**.

**NOTE:** This option may not appear if you have **Package installer** as your default installer.

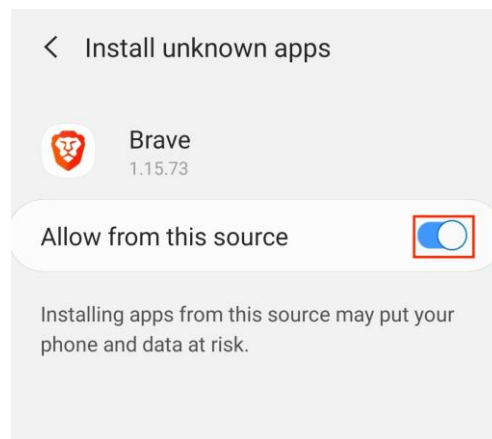

**6** You may receive a popup option/warning related to unknown apps as shown in the screenshot below.

**NOTE:** This option may not appear if you have previously allowed your browser to install unknown apps.

Tap **Settings** and select **Allow from this source** toggle switch when the screen below appears.

Tap/press device back button to go back to the installation screen.

7

Tap **Install** button.

8 When the installation completes, tap **Open** button to open the app.
